Engrg, 1982, 16, 173-183... Professional Engineer: TARCKUMAR.The present invention relates to an endoscope device. More specifically, the present invention relates to an endoscope device which is used with endoscope to check the inside of a body cavity and is suitable for observing transparent biological specimens. The present applicant has previously filed an application on the endoscope device with a transparent part (Japanese Patent No. 2897891). In this endoscope device, a transparent part is provided in an insertion tube, and transparent biological specimen such as an organ which was captured with the transparent part is observed from the outside. According to this endoscope device, the observation of transparent biological specimen can be performed, for example, after the endoscope device is inserted into a body cavity and an observation field of observation is set inside the body cavity by the operator.Peace follows - contact This beautiful beach home is a 3 bedroom, 2 bath, house on private, gated 27 acres in Oak Knoll Shores.
